

Swore I Was Leaving

Lady A

I know that if I stay, this is gonna go
Somewhere I don't wanna go again
I could turn back around, I probably should
We were never good at just bein' friends
And I was just thinkin' 'bout closin' my tab
Then you came in here lookin' like that

I swore I was leavin'
After this drink
'Til you walked in this evening
And changed everything
No, we both know what's comin'
At the end of the night
I swore I was leavin'
But with us, it's never goodbye

Baby, I was done when the neon buzzed
And that song we love started to play
Yeah, it'd be a shame if I didn't ask you for a dance
For old times' sake, ooh yeah
I know it ain't right to drag this along
But I'm no good at movin' on

I swore I was leavin'
After this drink
'Til you walked in this evening
And changed everything
No, we both know what's comin'
At the end of the night
Yeah, I swore I was leavin'
But with us, it's never goodbye

No, it's never goodbye
(It's never goodbye)

Well, the bar's nearly closed, I hate bein' alone
And the rock in your glass is half gone

I swore I was leavin'
After one drink
'Til you walked in this evening
Oh, and you changed everything
We both know what's comin'
At the end of the night
Yeah, I swore I was leavin'
But with us, it's never goodbye
