

Come to Mama

Lady Gaga

It wasn't that long ago we were living in the jungle
So why do we gotta put each other down
When there's more than enough love to go, g-go around
Come to mama, tell me who hurt ya
There's gonna be no future
If we don't figure this out
a man of God

Come to mama, I'll put on you pajamas
Come to mama, I want no more drama
