

# Always Will For Now

Lady Lamb

I swallowed my gum  
When you called  
It's gonna sit in my stomach  
For too long  
I haven't decided whether I'm gonna keep my head down  
Or whether I'm gonna pick up the phone

I wander the downtown of this city tryin' to find your face  
Don't even know if I wanna see it ever again  
I'm not afraid to admit I'm afraid to admit I'm afraid of being  
erased  
How strange to exist in someone else's head

I still love you  
I think maybe I always will for now  
I still love you  
I think maybe I always will for now  
I still love you  
I think maybe I always will for now  
I still love you  
I think maybe I always will for now
