

Peanut Butter & Jelly

Lady Lamb

I am doubled over with the hunger of lions
My blood is racing where you ran when you kissed my throat
My brain is buzzing like bees making honey
My knees take to knocking as I step into the cold

I like peanut butter, I like jelly but on top of one another
I have had enough
(Enough, enough, enough, enough, enough, enough, enough, enough, enough
)

I am doubled over with blood on my knees
The lions are racing towards me
This hunger is buzzing like a belly of bees
So won't you step into the cold honey and kiss me
All over

The cold is buzzing in my throat
My brain is double
My blood is honey
I'm knocking don't make me get on my knees
Don't run away
Don't run away
My lioness
My lioness
My lioness
I've had enough
I've had enough
My lioness
