

I took a walk outside today
I took a walk outside today
I took a walk outside today:
It made me late

You took a walk into the sea
You took a walk into the sea
I watched your cheeks go underneath:
I walked away

The trees look like my grandmother's fingers
The trees look like my grandmother's hands you know
When she takes off her wedding bands

I saw so many pretty people
I saw so many pretty people
I saw so many people staring at their feet
Look up look up look up

The sky looks like my grandfather's eyes
The sky looks like my grandfather's eyes
When he's singing

I took a walk outside today
You took a walk into the sea
I watched your teeth go underneath:
I was too late

But you look like you could be my friend
You look like you could be my greatest friend
You look like you could be my friend
Don't go away
Don't go away

We could play our favorite records
We could walk out on the icy rivers
We could watch 'It's A Wonderful Life' on Christmas Eve
