

Mind Blown

Lady Leshurr

I've been doing this for way too many years
Shed way too many tears
Enjoying my fruits of labour I've ate way too many pears
I just take it step by step and now I've taken many stairs
I'm sick of all the fakes too many here
All these stationary stares
Cause I'm living everyday like it's my last
I'm feeling empty fill my glass
I ain't as pretty as I really want to be but I know they want t
o feel my ass
Double meaning they feel my ass
Cushion feeling sleep on that
No kush but feeling a lil high gone
Let's leave the world and get mind blown, it's on

Let's get mind blown
Let's get mind blown
Let's get mind blown
Let's get mind blown

Let's get mind to the blown
And if you're the queen better fight for the throne
Cause I know none of them are likely to show
They're knocking on heavens door but I'm right through the door
Man I'm feisty I know and I'm icy I'm cold
I'm a blow and whenever I see (icy) I'm froze
I don't want to stop cus I'm thriving to go
When I see a red light when I'm on the road
Then I'm likely to go eyes on the goal
Don't ever call for me when I'm on the phone
Man dem ah fall for me eyes dem a glow
Saying don't let go like I'm in En Vogue
But I won't let nobody try make me slow
I ain't broke yet so I'm living life as it goes
I'm a blow yes strike like a lightning bolt
I got a mind of my own

Let's get mind blown
Let's get mind blown
Let's get mind blown
Let's get mind blown
