

Quarantine Speech

Lady Leshurr

There's a war going on outside, we ain't same from
And I hope it don't stay long, coronavirus is a paigon
Gotta stay safe, cus I ain't dumb
Got the lysol with me I get my spray on
Can't leave your house for your day job
And some people now are getting laid off
It's mad, everything's mad
Everywhere I go, everybody's in a mask
I went Sainsbury's jut to get bog roll
All sold out I'm like, what now?
Cus I ain't tryna see no one
NHS I a mad thing, please don't come
Most food stores for sure ain't got alot
Now can't go abroad and schools are on lockdown

So please, don't cough around me, keep your salivas
Pasta and rice has gone no hands sanitizers
Tried ordering Addison Lee, but there was no drivers
I'm tryna catch some flights not coronavirus, coronaaa

Well, I would die if I could do, yeah that's what I should do
But they cancelled my flights to Miami and Cancun, so I'm not in a good mood
Nah nah, don't touch me
Big sis needs an apology cus I'll be on one like I'm in quarantine
I'm mad had to change up ah whole lot of plans before you go 'bout your business

Wash them hands, you better wash them hands
Wash them hands, you better wash them hands
You better, you better, you better...
Wash them hands, you better wash them hands
Wash them hands, you better wash them hands
You better, you better, you better...

Social distancing from my friends, I'm having no one over again
Beg you bedrin don't visit, trust me dawg, I can't risk it
I was on the timeline scrolling like, what is this? Not my idris
I can't believe this, what is going on?
Mother's day, and I can't see my mom?
Pubs shut down, now babe man are vex
Gym closed down, now how you gonna flex?
Half of the world can't be seen tested
So you don't even know if you're infected
Most think it's a joke, they're not interested
Still going out carry on till you get sick
Wait, people are really still going out raving?
Eh, that's outrageous
One cough will done ya dance, just stay in
Do a crossword stat painting, cus you don't want to see a paramedic
Bars hit you way harder then the pandemic
Everybody's in a fenze and a panic
Can't stop washing my hands become an addict

So please, don't cough around me, keep your salivas
Pasta and rice has gone no hands sanitizers
Tried ordering Addison Lee, but there was no drivers
I'm tryna catch some flights not coronavirus, coronaaa

Wash them hands, you better wash them hands
Wash them hands, you better wash them hands
You better, you better, you better...
Wash them hands, you better wash them hands
Wash them hands, you better wash them hands
You better, you better, you better...

Yo trust me know exactly how you feel
Surf the net and maybe watch a film
Now I got to quarantine and chill
Now I got to quarantine and chill
Yo trust me know exactly how you feel
Surf the net and maybe watch a film
Now I got to quarantine and chill

But on a serious one though
We need to wash our hands more, you know
Spread love not viruses, tell ms rona, she's cancelled
Stay safe!
