

Almost Famous

Lady Wray

Just today I saw his smile
I hadn't seen him in awhile
Took a trip down memory lane
I wonder if his kiss is the same
And how he made me feel so good
And all the other girls knew it
I wonder if we had another chance
Oh, how I'd love to call him my man

He kissed the girls, broke their hearts
Took them around the world
Bought them diamond rings
He kissed the girls and all the other girls knew it

Famous for being famous (He moved my heart)
Famous for being famous (Got him, love him)
Famous for being famous (I'm loving him all over again)
Famous for being famous

I remember when we would go for rides
You would let the top down the way you ride
We were sippin' on Hennessey
Always had him loving me
We always knew to pull it together
And he took care of whatever
But it's not the same as yesterday
Cause I was all caught up in the games he played

He kissed the girls, broke their hearts
Took 'em around the world
Bought them diamond rings
He kissed the girls and all the other girls knew it

Famous for being famous
Famous for being famous
Famous for being famous
Famous for being famous

Nobody can ever compare
It's your special love that always get me through
You open up my heart, I loved you from the start
You're different from the rest, you know you are the best
