

Lost

Lady Wray

Can't hold back what [?]
See my emotions I can't control
You're in my heart, you're in my mind
Dreams of you moving slowly in the dark
Seems like honey, your voice sticks to me
Brings out my inner ebony
I never felt this way before
I'm not sure

I wonder if your eyes wide shut
Tell me what you see with your eyes wide shut
Wonder do you hear me with your eyes wide shut
Can you hear me coming with your eyes wide shut

Can't stop, thinking about the love we make
Can't stop, thinking that my heart won't break
Don't wanna get lost, it's the way it's gonna take
As long as I'm lost with you
Lost

See this thing just ain't fair
I go around the whole world, come back and you're still here
Feel I'm tryna find a different place and time
Piece to your heart before I lose my mind
Close my eyes and I fall right back
Into this feeling that I can't control
I never felt this way before
I'm not sure

Can't stop, thinking about the love we make
Can't stop, thinking that my heart won't break
Don't wanna get lost, it's the way it's gonna take
As long as I'm lost with you
Lost

Can't stop, thinking about the love we make
Can't stop, thinking that my heart won't break
Don't wanna get lost, it's the way it's gonna take
As long as I'm lost with you
Lost
