

Melody

Lady Wray

I look back over all my years
Don't regret the smile, just tears
Then you came a long, long ways to me
You showed me all the love inside of me

And you touched my life, you make the heavens sing
You are so nice, sweeter than anything

Is that a star? Is it a melody?
You got my heart, you got my heart
I'm incomplete without you, Melody
You love me for real
You love me for real

You give me more, more than I ever need
I'm so blessed you're mine
When you came a long, long ways to me
I gave up all my life for you to be

You give me joy, I can't remember the tears
All of this joy, it matters more than fear
Mom, is that a star?

Is that a star? Is it a melody?
You got my heart, you got my heart
I'm incomplete without you, Melody
You love me for real
You love me for real
You love me for real

Is that a star? Is it a melody?
You got my heart, you got my heart
I'm incomplete without you, Melody
You love me for real
You love me for real
You love me, you love me for real
