

Talk With Time

Lady Wray

I understand why my heart throbs
We both have [?] feelings and we both have [?]
And we don't see each other always
We want to
All I need is one day out of the week
For you to be with me
If I could have a talk with time

I tell him to stay still
So I can see, see my boyfriend
For only time can save our relationship
If I could have a talk with time
I tell him to stay still
