

Walking By

Lady Wray

Finally, I see the truth
I can't take it no more, had enough of you
See this thing we had is over now
And I'm walking by

Ain't nothin' worse than a brotha that don't know what he got
Rather run around with pigeons and his boys in the drop
While his girl's working hard
Ain't nothin' so hard that you can't even focus
Talk about some money and your eyes get devoted
I see you on another left turn

Finally, I see the truth
I can't take it no more, had enough of you
See this thing we had is over now
And I'm walking by

Finally, I see the truth
I can't take it no more, had enough of you
See this thing we had is over now
And I'm walking by

Ain't nothin' worse than you say that you care
When your mind ain't even there
You kept me up plenty of nights worrying about if you gonna
Be alright
Ain't nothin' so cheap that you gotta lie to me
Do I look like I'm tryna look like I don't wanna worry no more
So I guess I'll be moving on

Finally, I see the truth
I can't take it no more, had enough of you
See this thing we had is over now
And I'm walking by

Finally, I see the truth
I can't take it no more, had enough of you
See this thing we had is over now
And I'm walking by

Kill your solitude
Here's where you be
Cause I'm leavin', yes I'm leavin'
You had a good thing but you blew it, yes you blew it
Kill your solitude
Here's where you be
Cause I'm leavin', yes I'm leavin'
You had a good thing but you blew it, yes you blew it

Finally, I see the truth
I can't take it no more, had enough of you
See this thing we had is over now
And I'm walking by

Finally, I see the truth
I can't take it no more, had enough of you
See this thing we had is over now

And I'm walking by

Finally, I see the truth
I can't take it no more, had enough of you
See this thing we had is over now
And I'm walking by
