

Where Were You

Lady Wray

Oh, oh, baby, yeah
When will this end? Oh, oh, oh

(Where were you)
When I was just sleeping in cars?
(Where were you)
When I should've been reaching for stars?
(Where were you? Where were you?)
Where were you? Oh (Where were you?)

Every day, all alone by the phone
Thinking, what in the hell did I do wrong?
Got me stressed, not a clue what to do
I need a hand, I need someone to lean on
Drinking wine in my room, all alone
I need a friend, I need a dog, I need a loan
Dreams come true, yes, they do, yes, they do
But not for me, you went and kept it all for you

(Where were you?)
Not a penny to my name, where were you?
(Where were you?)
I thought you had my back, where were you?
(Where were you?) Where were you?
(Where were you?) Where were you?
(Where were you?) Oh

I said, I wanna know, ooh
Now won't you tell me? Won't you tell me?
Where were you?
Oh yeah
Oh-oh-oh-oh, where?
Where? Oh

Now that things are looking up, I have some luck
Here you come way too late, this seems fake
You missed it all, I stay true from the gate
Why come now?
To make yourself look good, you're insane
Feeling good, I'm okay, oh, these days
Yes, I've learned, tables turned, the bridge is burned
But you're alone, your friends are gone, I made a home
Just a thought, should've invested in me, but you're not smart

(Where were you)
When I was just sleeping in cars?
(Where were you)
When I should've been reaching for stars?
(Where were you?) Where were you?
(Where were you?) Where were you? Oh
(Where were you?)

(Where were you?)
Not a penny to my name, where were you?
(Where were you?)
I thought you had my back, where were you?
(Where were you?) Oh

(Where were you?) Where were you? Oh
(Where were you?)

I need to know, said where were
I need to know
Where were you?
Where were you?
I'd like to know
But I'm feeling good, good, yeah
(Where were you?)
(Where were you?)
