

Our Process

Lady Zamar

Love is a diamond, stronger than night
I'd walk in the valley, the valley of death and never think twice
I would search the world, I'd climb above the mountaintops
I would see rainbows and the colors abroad

And you would stay in my arms
Stay in my heart
Stay in the moment
With no fear of the dark
Stay in my arms
Stay in my light
Until the sun comes up

Never give up on us, my love
Never give up
Never give up on us, my love
Never give up

Love is fury and you are the bird
All through my love, I'd rather guard you, than you and I
The simplest of souls are the ones that walk intertwined
Without troubles, with feelings, always inside, always on my mind

Never give up on us, my love
Never give up
Never give up on us, my love
Never give up
Never give up on us, my love
Never give up
Never give up on us, my love
Never give up

Your blessings were the story, and I am the tale
Of Achilles and Hercules, Agamnenon's fury, Helen's betrayal
There is death in these sails
Pulled the raft, I scream in the dark, the memories of you and I
They crash like the waves when the sea is angry any time it comes

Well there's a be still, a be still, a be still my love
You're the destination and I am the sign, I won't give up
No matter how fast I go I know I will arrive
I'll be safe in your home, safe in the four corners of your soul

And as the beat goes on and on and on, my love will hold on
And I know it's insane a little bit when I say, "I am in the now"

Never give up on us, my love
Never give up
Never give up on us, my love
Never give up
Never give up on us, my love
Never give up
Never give up on us, my love
Never give up

Never give up on us, my love
Never give up

Never give up on us, my love
Never give up
I'll pray till the sun comes up, my love
Never give up
Never give up on us, my love
Never give up

I'll never give up
I'll never give up
I'll never give up
I'll never give up
Never give up on us, my love
Never give up
