

# Starlight

Lady Zamar

Star light so bright passing through the night  
I'ma make a wish  
Stop it  
Go through the night  
Star light so bright flying through the night  
I'ma make a wish  
Stop and  
Make it all alright

Give me you  
Give me you  
Give me you give me all  
From your head to your toes  
Give me you  
Give me you  
Give me you give me all  
From your head to your toes

Take me back with all I bring  
Never building walls within me  
You make me feel so great  
Like I'm always on fire  
Let my hands remind ya  
That there's more desire  
Kisses sweeter than wine  
You are an image designed  
Your hands on mine  
A strength so sublime  
From God that blesses the skies

Star light so bright passing through the night  
I'ma make a wish  
Stop it  
Go through the night  
Star light so bright flying through the night  
I'ma make a wish  
Stop and  
Make it all alright

Give me you  
Give me you  
Give me you give me all  
From your head to your toes  
Give me you  
Give me you  
Give me you give me all  
From your head to your toes

Put your fears away  
I'm here to save the day  
Give us a chance baby  
Quit all the the pretending  
You know you're the greatest already  
You are fruit of the vine  
The tallest tree mine  
The sun won't set when you smile  
As the stars bow down

And the moon still shines  
I wish I may I wish I might

Star light so bright passing through the night  
I'ma make a wish  
Stop it  
Go through the night  
Star light so bright flying through the night  
I'ma make a wish  
Stop and  
Make it all alright

Give me you  
Give me you  
Give me you give me all  
From your head to your toes  
Give me you  
Give me you  
Give me you give me all  
From your head to your toes
