

# Hysteria

Lafee

Smile and one of my hearts break in two  
Inside out, I'm all mixed up in you  
You call my name and draw me near  
I come close, you disappear again  
I guess I never learn

There is nothing left that I can do  
Hysteria  
You're in my bones, my heart, it beats for you  
Hysteria, Hysteria  
I'm crazy, happy  
Hysteria  
That it's worth one thing  
There is nothing left that I can do

When you're gone, it's like holding my breath  
And with your kiss, I come to life again  
You call my name and draw me near  
I come close, you disappear again  
I guess I never learn

There is nothing left that I can do  
Hysteria  
You're in my bones, my heart, it beats for you  
Hysteria, Hysteria  
I'm crazy, happy  
Hysteria  
That it's worth one thing  
There is nothing left that I can do

Mercy, at your mercy  
Mercy, at your mercy  
Mercy, I'm at your mercy  
(I'm at your mercy)

There is nothing left that I can do  
Hysteria  
You're in my bones, my heart, it beats for you  
(It beats for you)  
Hysteria, Hysteria  
I'm crazy, happy  
Hysteria  
That it's worth one thing  
There is nothing left that I can do  
Hysteria
