Laila!

Bae, you know I'm on a roll  
Just tryna make moves, baby, I'm on the road  
Bae, you know I'm ready, yeah, I stay on go  
And if you can't get wit' it, then you gotta go  
On my own, do it on my own  
L-A-I-L-A, bae, you already know  
He ask me where I stay and I said "I don't know"  
Couldn't control me if you was a 'mote control

In control  
I be in control  
You playa haters be watching while I'm in control  
In control  
I be in control  
While they be folding like paper, I stay in control

You pocket watchin' my paper while I'm countin' rolls  
Y'all talkin', watchin', and hatin' while I'm in my zone  
Send me the location, be there 'fore you know  
But if you ask my location, it stay undisclosed

This what I do  
I like to keep it realer than your Trues  
I like my bands to be blue  
Love to make beats up in my room  
Cooked the beat so I eat it too  
But I don't really got nothing to prove  
Do it all, no pickin' and choose  
All I do is win, don't know how to lose  
B-baby from BK, call me Baby Genius  
I been like this since a fetus  
Not from this world, could say I'm from Venus  
Only seventeen and my beat is the meanest  
I put it on, yeah, I stay the cleanest  
Riding for mine, it ain't never no treason  
Do what I love, that's really my reason  
You can't keep it real?
