

Memorize You

Laine Hardy

Yeah, I know we just met but you've been in my head
Like a song since last night
Got your name at the bar where you're from who you are
But what's on my mind
Is everything I don't know
And everything I want to
Just give me some time with your smile, baby
I wanna memorize you

I wanna know your heart by heart and your kiss by kiss
Wanna know what it was like every day before me
What's your story, baby, every single line
What makes you laugh, makes you dance, makes you fall
Like only love can do
Give me some time with your smile, baby
I wanna memorize you
Memorize, memorize you

Is it crown, is it shine on a weekend night that gets ya spinning around?
Is it a back porch buzz or a cab loaded up and headed downtown?
Girl, I wanna know, the lens you're lookin' through
Just give me some time with your smile, baby
I wanna memorize you

I wanna know your heart by heart and your kiss by kiss
Wanna know what it was like every day before me
What's your story, baby, every single line
What makes you laugh, makes you dance, makes you fall
Like only love can do
Give me some time with your smile, baby
I wanna memorize you, yeah
Wanna memorize you

I wanna know your heart by heart and your kiss by kiss
Every day before me
What's your story, baby?

Yeah, I wanna know your heart by heart and your kiss by kiss
Wanna know what it was like every day before me
What's your story, baby, every single line
What makes you laugh, makes you dance, makes you fall
Like only love can do
Give me some time with your smile, baby
I wanna memorize you, yeah

I wanna memorize you
Girl, I wanna memorize, memorize you
