

Good Horses

Lainey Wilson

If there's a green pasture I wanna be in it
I'm a wild wild flower just a ready for the picking
Ooh...
31 years is a long time coming
Feet off the ground but I'mma still running
Ooh...

I don't need a map
I don't need a road
I don't need a fence
I just need to roam
If you wanna love me
You don't need a rope
You just need to know
Good horses come home

Mockingbirds singing, hummingbirds humming
Searching for a song so I keep on strumming
Ooh...
Come a long way since I left Louisiana
My dream tied on like a red bandana
Ooh...

I don't need a map
I don't need a road
I don't need a fence
I just need to roam
If you wanna love me
You don't need a rope
You just need to know
Good horses come home
They always come home

Blame it on my bloodline
Blame it on my daddy
Blame it on the highway
Under my hemi
Baby, just remember when you start to miss me
Hmm...

I don't need a map
I don't need a road
I don't need a fence
I just need to roam
If you wanna love me
You don't need a rope
You just need to know
I don't need a compass
I don't need a saddle
Let go of the reins, baby, let me unravel
If you wanna love me
You don't need a rope
You just need to know
Good horses come home

Good good good horses
Good horses come home

Good good good horses

Yeah boy, won't you gimme some slack
They might run for hills but they always come back
Yeah boy, won't you gimme some slack
They might run for hills but they always come back
Good good good horses
They always come home
Good good good horses
They always come home
Good good good horses
Good good good horses
