

I Make Myself

Lainey Wilson

I make myself drive through your town
I make myself pull over, get out
Find our corner booth
Let the tears come down
I make myself

I make myself hear that one song
And I make myself turn off my phone
Go out with some friends
And try to move on
I make myself

How long, how long does it take?
To put a heart back together after it breaks?
There must be a way to speed up the hands of fate

I make myself forgive my mistakes
And I make myself believe I'm okay
And I know Rome wasn't built in a day
So I make myself

How long, how long does it take?
To put a heart back together after it breaks?
There must be a way to speed up the hands of fate
So I make myself
Mm, I make myself

I make myself meet someone new
And I'll make myself forget about you
'Cause you can't feel the old
When you're in something new
I'll make myself

How long, how long does it take?
To put a heart back together after it breaks?
There must be a way to speed up the hands of fate
So I make myself
Mm, I make myself
