

Because Because

Lake Malawi

Can I come?

Where is everyone going?
Why is everyone passing by?
I'm watching them, knowing
I'm gonna see you tonight

My sister keeps sowing
She's been working for someone's bride
You were married before me
Did it feel alright?

Because, because, because, because, because
I feel no love until it's lost
It comes and goes and comes and goes again
You can call me if you need a friend

Soon it'll be snowing
I'm packing my warmest clothes
New wind will be blowing
On the open road

Where is everyone going?
What is everyone trying to hide
You're watching me, knowing
I'm gonna leave you tonight

Because, because, because, because, because
I feel no love until it's lost
It comes and goes and comes and goes again
You can call me if you need a friend

It shows, it shows, it does, it shows, it shows
You still miss the lovers who go, I know
If ever there's a place that you call home
Can I come and repaint your door?

Can I come?
Can I come paint your door?
Paint your door
