

## Surrounded by Light

Lake Malawi

Lost myself again, lost myself again  
God knows you're my only friend  
I don't know about the name  
They gave me when I came here  
To tell you that I'm still the same

You know me better than I do  
You know me better, I, I know, I know you do  
When you were standing by my side  
Everyone told me we, we were surrounded by light  
By light, by light

You and me ignite  
Can you stay each night?  
We'll be surrounded by light  
Find me in the dark  
With my windows wide  
Wide open for the wild heart  
All we need's a spark  
That you have inside  
I saw it at first sight  
1989, this will blow my mind

Found out once again, found out once again  
If it's not okay, it's not the end  
Teach me how the pain can show me who I am  
Every time I don't run away

When you were standing by my side  
Everyone told me we, we were surrounded by light  
By light, by light

You and me ignite  
Can you stay each night?  
We'll be surrounded by light  
Find me in the dark  
With my windows wide  
Wide open for the wild heart  
All we need's a spark  
That you have inside  
I saw it at first sight  
1989, this will blow my mind  
When we're surrounded by light

I closed my eyes  
You said: "Baby can you see the light?"

Woke up in a car  
Have I gone too far?  
Wonder what it's all about

You and me ignite  
Can you stay each night?  
We'll be surrounded by light  
Find me in the dark  
With my windows wide  
Wide open for the wild heart

All we need's a spark  
That you have inside  
I saw it at first sight  
1989, this will blow my mind  
When we're surrounded by light
