

Bloodflies

Lakeside X

Want to get your eyes and feel it for real
Be somebody awoken that I used to be
Wake up one day
Want to hear it
I want to be a little twisted one in a bohemian play

I want to feel your heart now keeping up my heartbeat
A Lady Torment such a candy, suffering and waiting

Will you take me under the red lights, silver girl
Will you bring me high with your lips and with your hands
Will you hunt me, or are you haunted
Do you want to grab me into oblivion

Give me a last dance

Give me just one last dance
With the bloodflies

Will you suck my blood out of me
Suck my blood out of me

Drunk with blood and tied to the cross with chains
Are you special or does the light just make the change
Are we hunting or are we haunted
Or are we just damned in our miserable existence

Give me a last dance
Give me just one last dance
With the bloodflies

Will you suck my blood out of me
Suck my blood out of me
