

Eveready Man

Lakeside

I'm full of energy
Lots of energy
And all my energies are conducted by you
Girl, it's you that lights the fire
In my heart sugar
I'll make you happy just when you're feeling sad

Just let us wine and dine
Let your love light shine
Like you never have before
All purpose powercell will make your heart
Sail deep into an ocean of love

When you need me
I'm your eveready man
I'll come running
I'll be there to lend a hand
On the double just call me
Twenty-four hour Dan
Just turn me on and watch me work
Your eveready man

Your engine's out of gas
Worrying about the past
When our love can last forever
With lots of energy
So much energy
To bring you joy just when you need it baby

Let us wine and dine
Let your love light shine
Like it never has before
All purpose powercell will make your heart
Sail deep into an ocean of love

When you need me
I'm your eveready man
I'll come running
I'll be there to lend a hand
On the double just call me
Twenty-four hour Dan
Just turn me on and watch me work
Your eveready man
