

Special

Lakeside

She's really something special
She's the spice of life
Special is how I treat my baby
The girl is out of sight

I've been searching all my life
For someone warm like you
Someone who's so sweet and kind
Makes you feel special too

And now I've found that girl
Even makes the wrong seem right
She brightens up my dreary world
And fills those empty nights
She keeps her smiling face
A pleasure to see
I'm just so happy she loves me

She's really something special
She's the spice of life
Special is how I treat my baby
The girl is out of sight

Never has a nasty word to say to anyone
When I lose she makes me feel
As if I really won
(Cause you're a winner)
Has a certain point of view
She always sees the good
(Knows the good from the bad)
In everything and everyone
As everybody should
Ooh, how I love this girl
Who always makes me see
When I'm wrong and when I'm right
And loves me patiently
She has beauty on the inside
To me that's where it counts
So beautiful inside and out

She's really something special
She's the spice of life
Special is how I treat my baby
The girl is out of sight

And now I've found that girl
Even makes the wrong seem right
She brightens up my dreary world
And fills those empty nights
She keeps her smiling face
A pleasure to see
I'm just so happy she loves me

She's really something special
She's the spice of life
Special is how I treat my baby
The girl is out of sight

S. is for the simple things to do
