

Leaving was never something that I ever thought I needed help with  
But hell, this just isn't easy  
Thought that I was making progress, but I'm weak, and-  
Helpless, tell me how I'm supposed to not pick that call up  
When it lights up and it's your face  
Stuck between a rock and your place

By now going out on the town  
Should be looking like a wild with the girl I just met  
By now double crowd going down  
Should be feeling like I've been doing my best  
Yeah, I don't know what to do when it comes to you  
Someone throw me a lifeline now  
'Cause I'm at your house, every light's out  
Ain't no, ain't no how I could ever say goodbye now  
(Goodbye now, ain't no, ain't no how I could ever say goodbye)

Tease me, tell me everything will be alright  
Make me believe it  
But you don't mean it

By now going out on the town  
Should be looking like a wild with the girl I just met  
By now double crowd going down  
Should be feeling like I've been doing my best  
Yeah, I don't know what to do when it comes to you  
Someone throw me a lifeline now  
'Cause I'm at your house, every light's out  
Ain't no, ain't no how I could ever say goodbye now  
(Goodbye now, ain't no, ain't no how I could ever say goodbye)

How I'm supposed to not pick that call up  
When it lights up, and it's your face  
Stuck between a rock, and then I'm up in your place

By now going out on the town  
Should be looking like a wild with the girl I just met  
By now double crowd going down  
Should be feeling like I've been doing my best  
Yeah, I don't know what to do when it comes to you  
Someone throw me a lifeline now  
'Cause I'm at your house, every light's out  
Ain't no, ain't no how I could ever say goodbye now  
(Ain't no, ain't no how I could ever say goodbye)  
Ain't no, ain't no how I could ever say goodbye
