

# Say It First

Lakeview

It's been a long time coming  
Who would have thought we in this way  
We ride on the money  
Now that everything's changed  
Is it going to be me or you?  
Follow all the barrel to the love for new  
Pull the trigger  
Do just what we have to do yeah  
Big girl we have to choose

You'll say you leaving come up with reason  
Anything to make me hurt  
Yeah, I can't even go walk the deep  
In anything to make it worse  
You swear that you didn't mean it  
I think it's time to believe it  
We're getting closer to being over  
But who's going to say it first

Why we keeping this it's whole thing running?  
You know it's broke down it's one way out  
We're both lying about something  
Why the hell can we just let it out  
Is it going to be me or you  
Bottom all the barrel to the love  
We knew pull the trigger  
Do just what we have to do  
Ever thought you'd be someone I'd have to lose

You say you're leaving come up with reason  
Anything to make me hurt  
Yeah, I can't even could walk the deep in  
Anything to make it worse  
You swear that you didn't mean it  
I think it's time to believe it  
We're getting closer to being over  
But who's going to say it first

You first leave it come up with reasons  
Anything to make me hurt yeah  
I get even go walk the defense  
Anything to make it worse  
You swear that you didn't mean it  
I think it's time to believe it  
We're getting closer to being over  
But who's going to say it's first  
You'll say you leave it up with reasons  
Anything to make me hurt  
Yeah, I can't even go  
Walk the deep in anything to make worst  
You swear that you didn't mean it  
I think it's time to believe it  
We're getting closer to be over  
But who's going to say it first
