

# You Were Meant For Me

Lalah Hathaway

You were meant for me  
No one else could come  
Between this love, I know  
'Cause I'll never let you go

You and me it seems  
Never have a problem  
We can't overcome  
'Cause you'll always be the one

Never thought I'd be so happy  
Loving you has made feel so fine  
I can see my friends turn green with envy  
Every time I tell them, I'm so glad you're mine

You were meant for me  
No one else could come  
Between this love, I know  
'Cause I'll never let you go

You and me it seems  
Never have a problem  
We can't overcome  
'Cause you'll always be the one, yeah

Never did one thing to hurt me  
You always understood my ways  
If I could, I'll stay right here beside you  
With your hand in mine, making love for days

You were meant for me  
No one else could come  
Between this love, I know  
'Cause I'll never let you go, you were meant for me
