

Boom

Laleh

All the unknown tragedies
That's you've been through I can see
All you unknown qualities

All the things you've never told
Honey, you don't have to own them
They don't have to be

So leave it to me
Leave it to go
Leave it to the ghost stay get worried about that
Leave it to me
Leave it in the dark
Leave them to the long gone never look back

Stand by me
And I'll stand by you
We live in dark in the earth to boom
Tell the mum that we will be there soon
Before you go let your heart go boom
Let your heart go boom x3
Boom x3

All the blessings we receive
Go together where they played on
It's how it's supposed to be

So leave it to me
Leave it to go
Leave it to the ghost stay get worried about that
Leave it to me
Leave it in the dark
Leave them to the long gone never look back

Stand by me
And I'll stand by you
We live in dark in the earth to boom
Tell the mum that we will be there soon
Before you go let your heart go boom

Stand by me
And I'll stand by you
We live in dark in the earth to boom
Tell the mum that we will be there soon
Before you go let your heart go boom
Let your heart go boom x3
Boom x3
Let your heart go boom
Boom...
