

## Closer

Laleh

Light a candle by my window  
So you see I'm home  
Do you ever stop outside my window  
If you do then I'm watching the candle too  
If you do then I'm watching it too  
We are watching the same thing  
All over  
And all ready  
I feel closer  
Watching the same thing all over  
All ready  
I feel closer  
And all ready  
I feel young and all  
Ready  
I feel stronger  
Close... notes rhythm and rhyme  
It's all in my mind but what isn't  
Put a painting by my window  
So you see I've grown  
I've learned to paint the world as I like as you told  
Put a painting by my window  
So you see I've grown  
I've grown from a girl to a woman  
I've grown  
Attached to the wood by my window  
Attached to the wood by my window  
And we're watching the same thing  
All over  
And all ready  
I feel closer  
Watching the same thing all over  
And all ready  
I feel  
And all ready  
I feel  
And all ready  
I feel closer  
Close... notes rhythm and rhyme  
It's all in my mind but what isn't  
It's all in my mind but what isn't  
It's all in my mind but what isn't  
Close... notes rhythm and rhyme  
It's over
