

Dark Shadow

Laleh

Dark shadow pass
You're standing in my view
I can't see by you
I'm hanging loose like jupiter
With shaking knees like tambourines
And it seems you're working on my final scene
Final speech, it's looking bad, dark shadow pass
She was on and off with life
Despite the fact she loved it very much
And tonight wearing, beautiful but sad
New York black
Dark shadow pass
You're standing in my view
I can't see by you
I'm hanging loose like jupiter
Shaking knees like tambourines
And it seems you're working on my final scene
Final speech, it's looking bad, dark shadow pass
She was on and off with life
Despite the fact she loved it very much
And today, you're looking sweet but sour
I wish you weren't so
I wish you weren't so coward
