

Move On

Laleh

I'm not ready to give in, no
Ain't ready to let go, no
It's never too late
They're gonna hate, well
I've decided this, so
This is the day when my life changed
The moment, the day when I take none of this again
I keep telling myself you're definitely not there
Amen, for trying
You just got made
And they will try to change you
Gotta get that move on
Gotta get that move on
You're just getting closer
And changes they will come
Gotta get that move on
Gotta get that move on
Not ready to give up, no
Was born for this
I keep telling myself you're definitely not there
But say it again
Say it again
Amen, for trying
You just got made
And they will try to change you
Gotta get that move on
Gotta get that move on
You're just getting closer
And changes they will come
Gotta get that move on
Gotta get that move on
This is the day where my life changed
This is the day where my life changed
This is the day where my life changed
Amen, for trying
You just got made, oh
And they will try to change you
Gotta get that move on
Gotta get that move on
You're just getting closer
And they won't always like you
Gotta get that move on
Gotta get that move on
