

# Nation

Laleh

I don't need no evidence  
I've got my self confidence  
So you don't have to say a word  
You don't need to judge this girl

Come down you, you old teacher  
And I'll give, I'll give you a lecture  
Come down you, you old leader  
Come and look what you've done  
To my nation

Let's call it self defence  
A call for happy ending  
But each side steps and says  
Je regrette rien

Don't say It  
Don't say you don't regret a thing  
Don't say you don't regret a thing  
You could be my sister my brother and I won't let you  
go  
Don't say you don't regret a thing  
Don't say you don't regret a thing  
But each side steps and said

Je regrette rien  
Don't say It  
Je ne regrette rien..

Born in an haunted nation  
Since when was War a passion  
Born with a fighting rebound on them  
Now look what it's done  
Done to our nations, lets say it  
Let say it...

Don't say you don't regret a thing  
Don't say you don't regret a thing  
Don't say you don't regret a thing  
You could be my sister my brother and I won't let you  
go

But each side steps and said  
Je regrette rien  
Don't say it  
Je ne regrette rien rien...  
Don't say it...
