

# November

Laleh

Well you know me  
I've never been afraid  
I always jump into it  
With my whole heart and no shame  
And the thoughts that I'm left with  
Is making such a mess  
There's nothing more confusing  
than the loss  
You've caused yourself  
and, all in all ...  
It feels you're like me and

Were the trees still green in november  
And I know I can't remember summer being so gone  
But I will play along  
But it feels, It feels so much  
That we don't know what we're doing  
And I never knew, never thought  
They could play along honey  
But they don't know what they're doing

And I know I won't admit it  
And I don't want to say it  
But I still look for you in the park  
On my way home each day  
And no, I won't admit it  
Not even to my friends  
They think I'm doing well  
And I even lie to myself  
How long can you keep a secret from yourself  
Like that storm that blew me back 2 years  
To that first step I took away from you  
And the hope that you left  
It's hidden in my room I'm a strong woman  
But sometimes I'm weak for you  
And on and on, I close my eyes and  
I'm still there I'm still there ...

Were the trees still green in november  
And I know I can't remember summer being so gone  
But I will play along  
But it feels, It feels so much  
That we don't know what we're doing  
And I never knew, never thought  
They could play along honey  
But they don't know what they're doing

I close my eyes and I'm still there and  
Were the trees still green in november  
And I know I can't remember summer being so gone  
But I will play along  
But it feels, It feels so much  
That we don't know what we're doing  
And I never knew, never thought  
They could play along honey  
But they don't know what they're doing
