

# Roses

Laleh

I will listen in stereo  
I'm here  
I'm here  
it was long time ago  
someone whispered in my ears  
and Sevy says she knows me  
I won't stay  
I won't stay  
and she might know me well  
but not today, I hope  
and this time I'll be brave  
along the clouds  
but it takes time to say  
here you are

cause I can't keep the roses  
no  
I can't save the roses  
the roses from before  
cause I can't save the roses  
no  
I can't save the roses  
the roses from before  
I can't save the roses  
the roses from before

how you grow  
you grow on me each day  
the past I know  
but the past don't know the smell  
of your neck  
this is all you wanted so you better believe it  
these things don't happen every day

so I can't keep the roses  
no I can't keep the roses  
the roses from before  
so I can't save the roses  
no I can't keep the roses  
the roses from

I don't have to save the roses from before  
oh, I'm pretty sure  
I'm going to try the roses  
I don't have to save the rose no  
I can't keep the roses

no I can't keep the roses from before  
I don't have to save the roses from before.
