

# For Only Love

Lali Puna

[Verse 1]

Don't give up on being tender  
Ingenious with wouth mide open  
May the world be fucked up  
And a strange place to stay  
You fall asleep  
And a warm wooden dream  
Is catching your soul

[Chorus]

For only love  
For only love  
For only love  
For only love

[Verse 2]

Don't give up on being weak  
Don't let it handle you  
May the dark age last forever  
We'll do it for the lightbreak  
We're doing it for rapture  
And you may think this awkward  
But I fell for you

[Chorus]

For only love  
For only love  
For only love  
For only love  
For only love  
For only love  
For only love  
For only love

[Bridge]

For whatever star above  
For whatever you may wish  
We whisper at night  
Knowing that the light will come  
And the morning means an end  
And no beginning  
But light is catching my soul

[Chorus]

For only love  
For only love  
For only love  
For only love  
For only love  
For only love  
For only love  
For only love
