

## Denial Mechanism

Lamb of God

A pathetic birth of the end times  
Slowly creeping to the final deadline  
No fairytale on a movie screen  
Just slow collapse beneath our gluttony

Take warning  
As the bloated masses gather  
Take warning  
At their childish screams of anger  
Suck this broken system dry until there's nothing left  
Take warning  
Take warning

An idiotic doomsday, a witless Armageddon  
Mass annihilation at the hand of our possessions  
Plastic in your bloodstream, plastic in your brain  
The human race is fucked behind our thirst for everything

Take warning  
As the bloated masses gather  
Take warning  
At their childish screams of anger  
The population bomb explodes, we've starved them all to death  
Take warning  
Take warning

Whores to despotism  
Denial mechanisms  
Free market suicides  
Extinction level lifestyles

But I'll be dead and gone long before the blade drops  
It's up to you my children to decide if this all stops

Take warning
