

The Black Dahlia

Lamb of God

I am the ones and the zero's that control commerce
And file you silently far away
I am the children starving in the gutter
Bellies full of unabated poverty

I am nihilism no future base instinct
Realized environmental collapse
I am life

I am the corpse of decency crucified
On a post of greed and moral decay
I am man

Submit and surrender unto Caesar
What is his rightful due
Complete oppression no catharsis
In emphatic contempt for all of life
I am man
