

Off the hook, in overload  
All the time  
Got a feeling in a moment  
Reasons rhyme  
Come and take a little while to understand  
How a little thing can get so  
Out of hand

Bulletproof  
Shake me  
Bulletproof  
Too strong to break me

Pictured this so many times  
In my mind  
Woken in the hottest dreams  
Of darkest night  
Look at me like that and say you don't want this  
Try it babe  
We got the static, take one good look at it  
No mistake

Bulletproof  
Shake me  
Bulletproof  
Too strong to break me

Too dangerous for miles  
Slip through my fingers and smile  
The Devil's in the detail  
Just give it up for Gods sake  
Burnin' up in your name  
And I can taste  
The love we make  
Before we've even made it

Cos this love is

Bulletproof  
Shake me  
Bulletproof  
Too strong to break me
