

# We Fall in Love

Lamb

Face to face  
One to one  
Two hearts race  
All is lost and won

Air to air  
Light to light  
All laid bare  
Senses taking flight

It all begins  
When stars align  
And two paths meet  
To re-define  
We fall in love  
We fall in love  
We fall in love  
It all begins  
When stars align  
And two paths meet  
To re-define  
We fall in love  
We fall in love  
We fall in love

Flame to flame  
Dust to dust  
We became  
Tenderness and trust

It all begins  
When stars align  
And two paths meet  
To re-define  
We fall in love  
We fall in love  
We fall in love  
It all begins  
When stars align  
And two paths meet  
To re-define  
We fall in love  
We fall in love  
We fall in love

(We fall in love)

It all begins  
We fall in love
