

## My Blue Wave

Lambchop

You lay around the house  
Nothing much to bark about, jump onto the bed  
Just bones and squirrels inside your head  
This is the only life I see for you

And if I gave a crap than show you where my head is at  
I would ride the moon and even if it comes too soon  
I could fall for you and you could fall for me

So we go all to the shows  
And happiness is all we know  
How it got to you and how it got to me too  
I wish I never knew about my blue wave

And William called and tried to tell me  
That his sister's boyfriend has just died  
He's not sure what to do  
And I'm not sure what to tell him he should do  
Sometimes William, we're just screwed in my blue wave

So what's the girl to do who sits on the couch  
And she's feeling blue  
Shakes it in the cup and she doesn't mind if it stays up  
Up, up, oh yeah, never mind the world, my blue girl

And the best is yet to come  
You may think you are the only one  
To never get it right just stick around on this lovely night  
And we may be amazed by my blue wave

To conclude this interview  
Many facts and fictions you construe  
The dog gives you the paw  
And you pat his head and you wipe his jaw  
He's the only one who knew about my blue wave  
My blue wave, my blue wave
