

## Company Culture

Lambrini Girls

Palatable, unthreatening, 'cause all men know better than me  
The glass ceiling ahead of me, so I'll take a backseat  
Smile and ignore that my boss wants to fuck me  
The wandering eyes at all times in the office

Blondes have more fun in company culture  
Pretend that I know how to use a computer  
Harassed in the workplace  
My cold resting bitch face  
When will I learn that men just do it better?  
(Don't touch me)

Palatable, unthreatening, 'cause all men know better than me  
Yet human resources say I'm asking for it  
Look over my shoulder  
Indecent exposure  
My co-workers say I've got no sense of humour  
Smile and ignore that my boss wants to fuck me  
The wandering eyes at all times in the office  
Day on the job looking hot playing dumb  
When will I learn that men just do it better?  
(Michael, I don't want to suck you off on my lunch break)

Blondes have more fun in company culture  
Pretend that I know how to use a computer  
Harassed in the workplace  
My cold resting bitch face  
When will I learn that men just do it better?  
Blondes have more fun in company culture  
Pretend that I know how to use a computer  
Harassed in the workplace  
My cold resting bitch face  
When will I learn that men just do it better?

That's enough  
I'll shut up  
I'll look hot  
And play dumb  
That's enough  
When will I learn that men just do it better?
