

## Daytona Meth

Lana Del Rey

Eh eh eh, eh

It's like a Hollywood movie  
The black and white waves sparkling truly  
My man likes to watch me while I watch TV  
whiles he's t-t-touching me

I remember vintage green wallpaper  
Your criminal arms, I couldn't feel safer  
King Creole daddy chasing that paper, I l-l-love you

Baby you'll never be old in my eyes  
with your golden grill, true love never dies  
We're forever young in paradise  
As long as you got the Chevrolet, I will ride  
I will ride  
I will ride

Baby you know mama never had much money  
but I plan on using this face to pay honey  
Give me give me give me give me you're so funny  
Love you 'till I die

Who's living life like it's the Belvedere  
Swinging all night on the crystal chandelier  
Bring that velvet Elvis over here  
Come on, baby you never know 'til you try  
Baby you never live 'til you'll die  
Baby you never love 'til you're mine

C'mon, you're mine, you're mine  
you're mine
