

# Swan Song

Lana Del Rey

Put your white tennis shoes on and follow me.  
Why work so hard when you could just be free?  
You got your money now, you got your legacy,  
Let's leave the world for the ones who change everything.

Nothing could stop the two of us  
Let's just get lost, that's what we want.

And I will never sing again  
And you won't work another day.  
I will never sing again  
With just one wave it goes away.  
It will be our swan song  
It will be our swan song  
Be our swan song  
It will be our swan song.

Dive in, dive deep and I blew my suede  
Brushing up from the water where the ice meets  
And you've been gone so long, you missed everything  
The world can change in a day if you go away.

But  
Nothing could stop the two of us  
If that's what we want, we could just get lost.

And I will never sing again  
And you won't work another day.  
I will never sing again  
With just one wave it goes away.  
It will be our swan song  
It will be our swan song  
Be our swan song  
It will be our swan song.

Do you like  
Do you like, where you've been  
Where you're going to (going to)?  
Say goodnight,  
Say goodnight to the life and the world you knew,  
I'm going to follow you.

And I will never sing again  
And you won't work another day.  
I will never sing again  
With just one wave it goes away.  
It will be our swan song  
It will be our swan song  
Be our swan song  
It will be our swan song.

Put your white tennis shoes on and follow me  
Put your white tennis shoes on and follow me  
Put your white tennis shoes on and follow me  
Why work so hard when you could just be free?
