

Valley Of The Dolls

Lana Del Rey

Baby, you're making me crazier than I am
So lately, I've been taking my violets, my oranges, my reds
Take the gun and put it to my head
So I forget, so I just forget again
You make me forget again, yeah
And baby, you're making me make up all my own plans

What's a girl to do when everyone looks bright
Nothing to forget about that don't turn to night
What's a man to do when nothing isn't right
Like to say, like to say the future don't look bright
