

# Wait

Lana Del Rey

Wait a little longer kid,  
what you wanna grow up so fast for?  
Why you doin' like I did?  
Didn't you say I got what I asked for?

But you're afraid to find out like me and climb out  
but you're always close to me  
You got a different story,  
it's the same damn thing  
Got a long way,  
rest your feet  
I know you can do anything

You are such a handsome boy,  
don't you give up your glory  
Why you wanna hit them streets?  
Didn't you never hear my story?

And it's fine to waste time  
but you've got a beautiful mind  
and you're always close to me  
You're a different kid  
but it's the same damn thing  
And it's a long way,  
you better rest your feet  
I know that you want everything  
That's what you told me

I still believe you  
I still see it's true  
I need you  
And I know you, dear  
but if you've gotta make it  
then I can take it from here

Wait a little longer kid  
Didn't I never say I would miss you?  
Don't go until I come home  
Please don't go until I kiss you  
And it's hard to grow up  
but we all know it's tough

Yeah, you're always close to me  
You'll have a different story,  
it's the same damn thing  
You got a long way,  
come on, rest your feet  
I know you can do anything
