

Darlin' let me get a moment
Come here, can you see?
I've been on my lonelies
Take a look up in my dream
At 19 I'm the teenage dream
Can I show you around my world?
I got a sound that you ain't heard
All my shit the latest, what you want?
Cause I probably got your favourite
Cocky be my fragrance, bitch I can serve you like a waitress
If I can't have you then, you're crazy
They may still got me on a playlist
I just gotta' say this, fuck with me now, I'm gonna be famous
I just wanna follow you, probably fall in love with you
Ride round, take some drugs with you
Look, it's not that hard to see
That no teen lives as fast as me
You can get anything you ask from me
Can you use your brain, can you work your mind?
I'm going insane, until you are mine
I'm the teenage dream, like no other kind
I'm perfect, oh boy

Whatever you need, (I probably got)
Whatever you want, (I probably got)
Love and affection, (I probably got)
Just a little attention, (I probably got)
Whatever you need, (I probably got)
Whatever you want, (I probably got)
Love and affection, (I probably got)
Just a little attention, (I probably got)
I got whatever you need, I got it, I got it, I swear to God I g
ot it baby
