She said you gotta' watch what you say cause' you can brainwash people  
She opened the door to my bedroom unlocked  
Two twins in my bed they the same not equal  
She took a drink to the head she said I made her evil  
She opened the door to my bedroom unlocked  
Eyes wide open evil love we stay up  
She brainwashed me  
She told me that I gotta give it up  
Brain swapped me  
She fucked me left me in a state of shock  
She said you gotta' watch what you say cause' you can brainwash people  
She opened the door to my bedroom unlocked  
Two twins in my bed they the same not equal  
She took a drink to the head she said I made her evil

Psyke!

Quick mathematics  
Racing rally  
First one worked no plan b  
Standardly my brain on fire  
Casually I talk to the demons  
I swear to God I ain't no liar  
Ain't no dying we living forever  
No burials  
More cheddar  
Break bread with my bruddas  
Got guns they come with butter  
My soul burn like the sun  
My heart same colour thunder  
Tryna leave I thought we were done?  
She tryna' make me stay longer  
Tryna' make me hold on...  
She saying "stop"  
I'm tryna' road run like a hungry dog  
She takes this potion into her lungs  
Brainwashed I can't lose I've already won  
Brainwashed she got me fiended and strung  
She took control and made sure love was the drug  
I had control but I know once ain't enough  
Demon in disguise see you through the angel dust  
Hurts like love
