

Fell In Love

Lancey Foux

We fell in love
It wasn't enough
I lost my mind
Till I can't find me
Fight, rage, love, yeah, yeah
We fell in love
It wasn't enough, yeah
We fell in love

It wasn't enough, nough', nough' (psyke)

I live with the P fuck the morphine
They tryna' steal away the sauce from a born thief

Tapped into my brain became more lethal
Took over the world like a black beetle
Got me the bag and I raised up my own people (whew, pshh)
They tryna' lose us everyday
I still talk to Judas everyday
I'm still tryna' get clue'd up renegade
My niggas will do ya, like Sellotape

In my head like a tumour, black skin
And they've been tryna' lose us
Pick a side low or high (low or high)
Young kids seeing genocide (genocide)
Niggas shot by the red light (red light)
Turn green they'll know next time
Live in rage watch the murder rise

My spot high all the time
My spot high all the time
I should let my soul eat my mental health
Even though they fold I can't change my code
Be smart control your life, hey you never know?
Watch me float, watch me go, take this road
I know you can't cope

Blood on my back
All them lies, you even saw
All them lies, you even saw
