This ain't no tattoo on my arms, this the Gaultier on my sleeves
Said she can't believe, said she uh, said she cant believe
She's standing in front of me, I'mma let her see
She balance upon her beam
I tip-toe, make her scream
I fell in love with a demon, I can't get her out my sheets
I fell in love with a freak, I can't get her out my sheet
And I can't get time alone
Yeah, I can't get time alone
Yeah, I gotta get time alone
I can't get my mind off what I did with the dough

I remember, I spent it, I spent it, I spent it
I spent it, I spent it, I spent it
I spent it, I spent it, I spent it
I spent it, I spent it, I spent it
I spent it, I spent it, I spent it
I spent it, I spent it, I spent it
No-no-no

I got her dragging a mink
She wanna fuck with a prince
I pop with a Cuban link
No underwear when we link
She pop the perc like a nymph
She really tryna go in
I lay you down in the whip
Can't see this shit through the tints

I ain't tryna be friends
She already know what I meant
Continental, the room with a vent
Top suite, this ain't a tent
My baby she know what it is
My lady she know what it is
She ain't tryna let me slip
She gonna think I'm a myth
